

Horizon Collaborate

A complete unified communications experience for your business

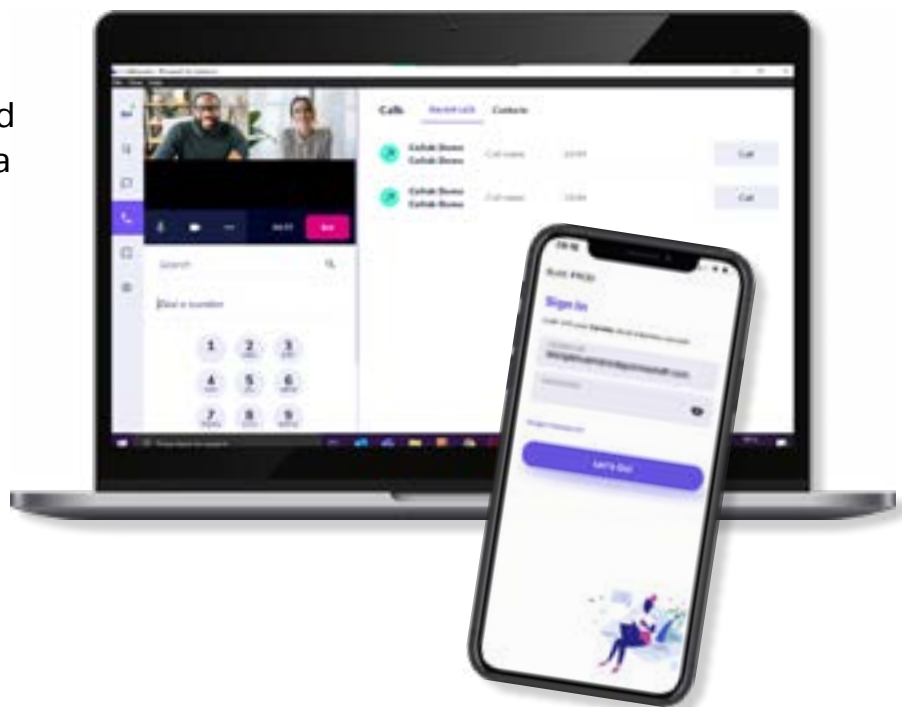

Effective communications are fundamental to business success. Today, more so than ever, your business needs to be agile to respond to customers quickly, day or night, and your employees need to be equipped to handle a constant flow of queries across multiple channels.

In this digital age we live in, faster response times can be a key differentiator, helping you stay ahead of the competition and stand out in a crowded market.

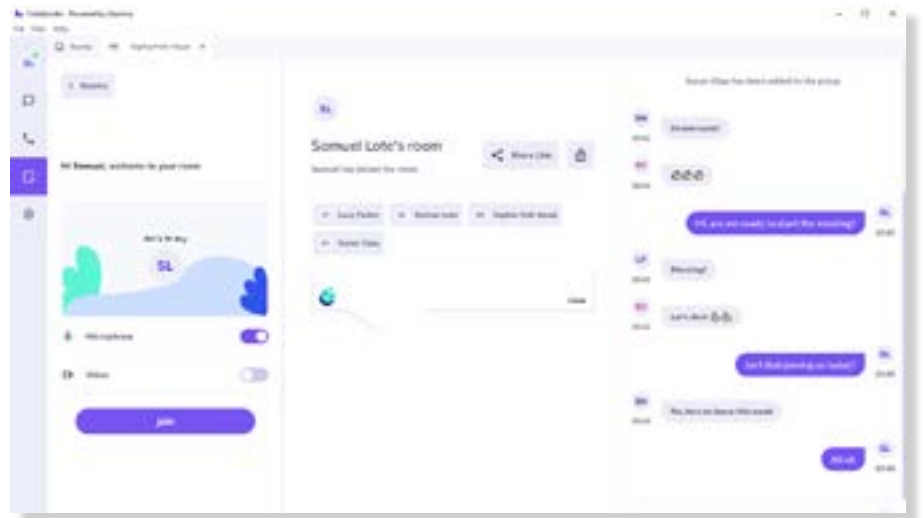

A true unified communications experience

Horizon Collaborate is fully-integrated with the award-winning Horizon cloud telephony service so you can benefit from business telephony features alongside collaboration tools such as video calling and instant messenger. Driven through a set of apps for Windows, Mac, Android and iOS, it enables users to access business communications and collaboration services from their favourite devices - wherever they are.

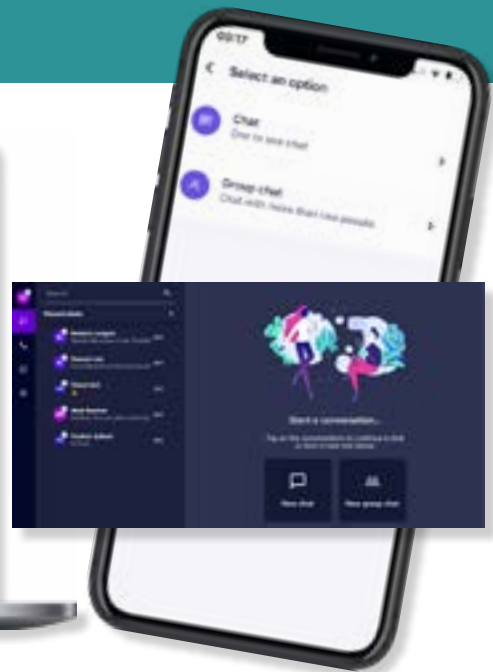

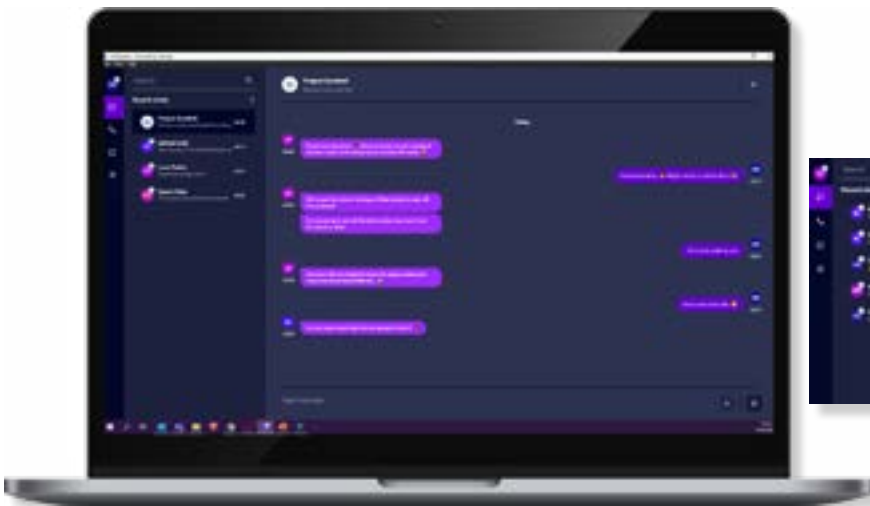

Virtual meeting room for every user

Quick and easy multi-party collaboration using My Room, a personal and fully managed conferencing space for voice, video and sharing with invited colleagues and guests.

Instant Messaging

Online chat between users and groups, reducing email inefficiencies.

Desktop, application and document sharing

Enables collaborative work and information sharing at the touch of a button.

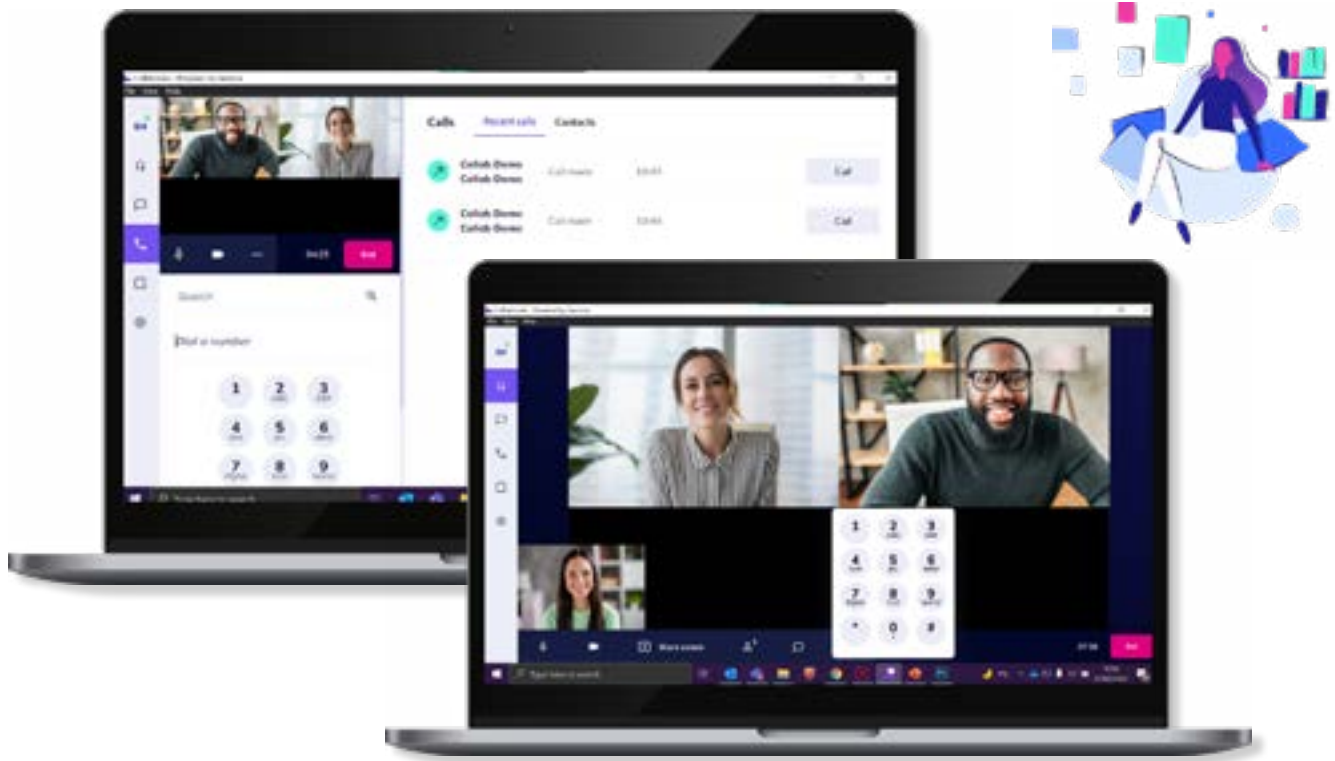

Screen sharing

Screen sharing options

Video Calling

Create a stronger collaborative experience using visual communication from mobile or desktop app.

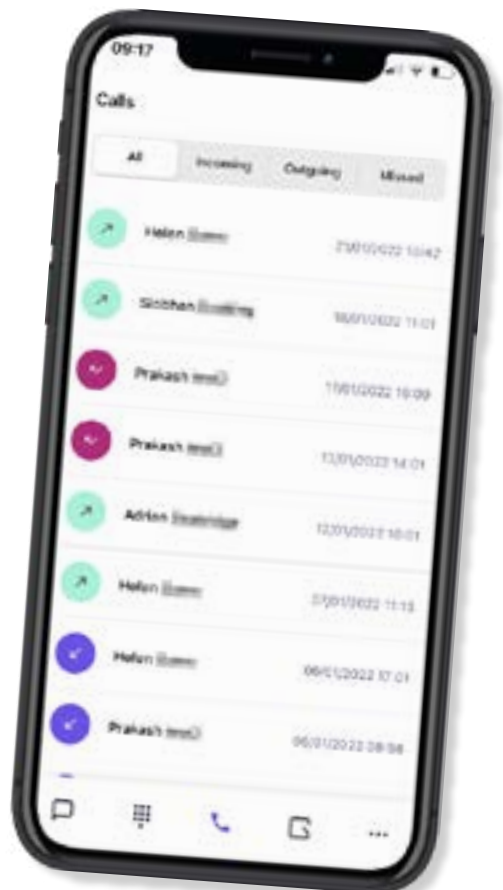

Presence

Shows personal status such as 'available', 'busy' and 'away' that helps determine the best way to communicate.

Hosted PBX features

Full telephony feature set and service with bundled minutes.

Business Benefits

Let Horizon Collaborate enhance your business efficiency

Work flexibly and collaborate any time, anywhere

Enables users to access business communications and collaboration services from their favourite devices - perfect for homeworkers or staff on the move that need to work productively whilst out of the office. Horizon Collaborate makes hybrid working effective at the desktop or mobile.

Personally managed meeting space for every user

Your Collaborate Room puts you in charge of how you manage your conferences, whether they be spontaneous sessions with co-workers reviewing a specific document or project, or a formal, planned training session for up to 50 attendees from inside and outside your organisation.

Get new features immediately

Horizon Collaborate has a great suite of features and provides a business route towards true unified communications. With auto-updates you get new features, upgrades and optional integrations with third-party applications as soon as they are developed and released. This also reduces the overhead necessary to manage your communication systems..

Perfect fit for a growing Unified Communications market

By effectively connecting people, applications, clouds and networks, you can transform how quickly and efficiently information is shared, thereby satisfying your customers' increasing demands as well as improving employee productivity.
